

Bedbug Treatment Preparation Sheet

The following checklist must be followed for proper control of bedbugs:

- * Place all clothing, bedding and washable items in bags to be laundered immediately after or during treatment. (Hot cycle)
- * Remove clutter and/or debris (throw out any unnecessary unwanted items, if discarding infested bedding and/or furniture do so before treatment.
- * Move items away from the wall, around bed and other areas where you sit.
Do not forget items under the bed.
- * Remove pets, and open food from treatment area.
- * Leave home for 4-6 hours to allow treatment to dry.

After treatment:

- * Do not apply any over the counter products or self-treatment remedies.
- * Vacuum all areas & dispose of the vacuumed debris outside of the home.
- * Keep clutter to a minimum.
